The Office of Emergency Management is within the Public Works Department. Yavapai County Office of Emergency Management’s principle responsibilities are in supporting the safety of our citizens and visitors, protection of our infrastructure, as well as our environmental and cultural resources, and assisting in community recovery efforts after an incident occurs.

This is accomplished through supporting response to “all hazard” incidents and special events and preparedness through planning, training, and exercise development.

Priority is given to the area of mitigation (lessening the effect) of hazards in order to achieve disaster resilient communities, capable of responding to and recovering from any incident. Achieving this is only accomplished in cooperation and coordination with our first responder organizations, community groups and leaders, Yavapai County leadership and organizational partners, State level leadership and stakeholders, and finally the relationships with our Federal and National supporting organizations.

Our work is focused on the following hazards:

- Natural
- Technological
- Man-Made Threats

Yavapai County Office of Emergency Management sponsors and supports grant funded projects for the development of defensible space through wildland fire hazardous fuel mitigation. For more information on this topic see:

https://yavapaifirewise.org/

For more information on Emergency Management, please visit their website at: http://www.regionalinfo-alert.org/ and https://www.facebook.com/YCOEM/
AIRPORTS

Yavapai County owns three general aviation public use airports located at Bagdad, Sedona, and Seligman. The Sedona Airport is operated and maintained by the Sedona Oak Creek Airport Authority (SOCAA) through a lease agreement, and the Bagdad and Seligman airports are operated and maintained by the Public Works Department.

Airport design and construction projects are funded by the Federal Aviation Administration (FAA) and the Arizona Department of Transportation-Aeronautics Division (ADOT) grants and local matches.

ROADS

The Roads Division provides for the maintenance of county road systems; approx. 800 miles of paved and 800 miles of unpaved roads for a total of approx. 1600 miles.

Local Roads are funded by the Highway User Revenue Fund (HURF); gas tax and vehicle license fees.

Regional Roads are funded by a portion of the half cent sales tax.

Subdivisions:

⇒ Roads Maintenance (Work performed by Yavapai County).
  Activities:
  • Chip seal, overlay, reconstruction, and paving
  • Patching
  • Potholing
  • Crack Seal
  • Grading dirt roads
  • Snowplowing
  • Cleaning roadside ditches and culverts
  • Brush cutting and weed mowing

⇒ Construction Management (Work provided by outside contractors)
⇒ Engineering
⇒ Right of Way Inspection and Permits
⇒ Signs and Traffic
⇒ Survey
⇒ Heavy Equipment Maintenance

SOLID WASTE

The Solid Waste Division operates eight transfer stations and two tire yards within Yavapai County.
