

YAVAPAI COUNTY

TRANSFER STATION FEES

The fees you pay at the County rural transfer stations cover only 60% of the cost for services. Each year Yavapai County must use over \$600,000 in property tax revenue to pay the remaining 40%. In contrast, folks who live within incorporated areas and communities that provide curbside pickup pay 100% of their trash disposal costs.

These rates will help to cover more of the cost, but still not cover it all. The new fees remain lower than those of other trash disposal services in the area.
